PROFILE

- Motivated Computer Engineering Student at PCCOE and a member at PCCOE ACM Student Chapter.
- I am a passionate coder and an Enthusiastic person. I have been figurehead for under 14,17 and 19 Jabalpur cricket team and I was a standby player for Madhya Pradesh in under 17 Ranji Trophy.
- I have quite a significant experience about the field and about the bitter-sweet feeling of winning and losing because I've been through a fair share of both.

PROJECTS

Library Management System

- The library management system is all about organizing, managing the library, and library-oriented tasks.
- It also involves maintaining the database of entering new books and the record of books that have been retrieved or issued, with their respective dates.

Healthcare Web Application

- It was an idea presentation for a healthcare application for people based in rural areas.
- We focused on the major issues faced by the people in rural areas and tried to overcome those issues.

Credit Card Fraud Detection using ML

- It's an ongoing project.
- We have done some research work in this field and published a research paper related to it.
- We studied different machine learning algorithms to find patterns and dependencies in the credit card fraud detection dataset.
