Projects

- Credit Card Fraud Detection using ML

It's an ongoing project, we have done some research work in this field and published a research paper related to it. We studied different machine learning algorithms to find patterns and dependencies in the credit card fraud detection dataset

- Healthcare Web Application

It was an idea presentation for a healthcare application for people based in rural areas. We focused on the major issues faced by the people in rural areas and tried to overcome those issues.

Hobbies

- Playing Cricket
- Traveling and trekking
- Watching movies, series, and standup comedy
