| Html | Css | JavaScript | React Js |
| Bootstrap | c++ | Sql | Node Js |

📂 PROJECTS

Library Management System
- The library management system is all about organizing, managing the library, and library-oriented tasks.
- It also involves maintaining the database of entering new books and the record of books that have been retrieved or issued, with their respective dates.

Healthcare Web Application ⤤
- It was an idea presentation for a healthcare application for people based in rural areas.
- We focused on the major issues faced by the people in rural areas and tried to overcome those issues.

Credit Card Fraud Detection using ML
- It's an ongoing project.
- We have done some research work in this field and published a research paper related to it.
- We studied different machine learning algorithms to find patterns and dependencies in the credit card fraud detection dataset.
